## STUDENT NEEDS

- Currently projecting a need for close to 11 EAs to support safety and personal care needs. Current allocation is 8 EAs.

## CRUSADER CREW

Crusader Crew is an initiative started last year for high school students. Our data supported a need for students to develop connection to staff members and engage in relationship building with their peers. Each day, students meet in grade diverse groups with a teacher and engage in team building activities for 15 minutes.

This structure serves our curricula objectives but also connect each student securely to an adult in the building. Our older high school students also serve as role models for the younger ones and helps to create a positive school culture at ACS.
