Re: June Reporting

Dear Families:

We would like to thank you for your ongoing and supportive efforts throughout the last three months while navigating Supplemental Learning together.

As we continue to engage in the Supplemental Learning process, we want to recognize the achievements of all Prairie Spirit learners. Our compass guides our instructional choices and reminds us that learning occurs all around us and not just in classrooms. We are hearing many incredible learning stories from the fields, kitchens, and backyards that highlight the resiliency of our students and the flexibility of all those impacting and supporting their learning.

Our Supplemental Learning Plan provided opportunities to all students and focused on the areas of Language Arts and Mathematics, as directed by the Ministry. We will be issuing Alternate June Progress Reports that reflect this focus on Language Arts and Mathematics.

- The June Kindergarten Report will inform parents through written comments.
- Grades 1 - 8 will be assessed in the areas of literacy and numeracy utilizing the 1-4 scale, with the bulk of the report being written feedback highlighting the Supplemental Learning period.

The most complete representation of student achievement will be found in the completed Term II Progress Report. The assessments in the Alternate June Progress Reports may reflect growth through supplemental learning. In cases where the student could not participate, or there was not an increase in achievement evidence obtained through supplemental learning, the Term II progress report grade will become their final grade in that subject area.

Please refer to the Term II progress report for final grades in subject areas not receiving a grade on the June Alternate Progress Report. The Term II and Alternate Progress Report will be included in the student Cumulative Folder.

- Grades 9-12 will receive a standard Progress Report with a percent for each subject and a comment. Marks for grade 10 -12 courses will be reported to the Ministry and appear on their final transcript. If students were below 50% as of March 13th and no evidence of supplementary learning was presented, the student will not receive credit for that course.

When classes were suspended in March, the Premier gave the following direction: Every student will receive a final grade based on their current grade, and students in K-9 will progress to their next grade level next year.

We will be emailing Alternate June Progress Reports between June 25 - 29.

Please be assured that our teachers understand the period of Supplemental Learning provided students with differing learning opportunities. In September, Prairie Spirit teachers will be connecting with their students to welcome them back, acknowledging the learning and growth that has happened during the period of supplemental learning and supporting them with ongoing achievement in their learning. We look forward to continuing to grow the educational partnership with our Prairie Spirit families next year!

Sincerely,

Mr. Craig Reinhardt
Principal
