PRAIRIE SPIRIT SCHOOL DIVISION

Allan Composite School

Safe School/Site Plan

Our guiding principle continues to be ensuring schools are a safe place for students and staff.

As COVID-19 is a continually developing situation, the guidelines, Division and school plans may be updated and adjusted depending on the impact of COVID-19 and the feedback of education partners in our province prior to the beginning of the school year.

The school plan template is based on the Ministry's Safe Schools <u>Plan</u> and uses the eight categories from the provincial plan as a framework for school-level planning.

Safe	Safe Attendance	
	**	Safe Attendance focuses on the health of students and staff before and while they are at school. If students or staff are ill, they should remain at home.
		If students or staff members become ill while at school, schools will ensure that they are properly isolated from the rest of the school until they are able to leave.
~	(page • Al • Al	ne <u>PSSD Return to School Plan</u> <i>Communication</i> (page 5) and <i>Guidelines for Illness in Care</i> 25)and the following procedures/protocols to develop your site plan: P-410 Safety, Appendix A P-432 Illness in Care DVID-19 Illness in Care Protocols
	schoo • ac • pr • hy • sc	nunicate protocols to students and families. Ensure school website is up to date with I level plans and protocols: ccess to schools rotocols and expectations /giene heduling, etc. e all staff, including itinerant staff and substitutes, have access to these plans.
~		e contact information for families, including Health information on seasonal/ Inmental allergies and emergency contacts in case a student needs to be picked up.
~		der using a range of social media to inform parents and community.
~	Paren illness	creening measures ts and caregivers being asked to monitor their children for any signs or symptoms of a. If any symptoms are present, the student is to remain home (if unsure refer to the tchewan COVID-19 Self-Assessment Tool).
~	Identi	s in Care Plan fy a designated isolation area for any student or staff presenting COVID-19 symptoms are not able to immediately leave their school facility.
~	Identi	fy a "designated school official" (DSO) to accompany a student from the classroom to plation space.
~		nask available for staff and student, and face shield available for staff in addition to a in isolation space.
~	Arran	ge for student to be supervised at all times.
~		n place to follow steps for contacting parents, Public Health, student pick up, and ng protocols.
~	develo	n place for DSO to provide alternative arrangements for in-class instruction if teacher ops symptoms consistent with COVID-19. (Follow school cleaning and disinfection dures upon teacher leaving the school facility.)
 		seating plans and in-school transition routes developed and readily available for ole contact tracing by Saskatchewan Health Authority.

Safe Transportation		
	Safe Transportation focuses on the safe movement of students to and from school. Where possible, the Ministry is encouraging parents to transport their own children to and from school.	
Schoo	 School divisions are to follow the Re-Open Saskatchewan guidelines: assign seats and a record of this seating plan on school buses; students who live in the same household should be seated together; partitions around drivers can be considered; and, cleaning and sanitation of buses or other vehicles used to transport students is required between each run. 	
~	See PSSD Return to School Plan, Transportation (page 38) to develop your site plan.	
\checkmark	Create plans for students to access multiple entrances and bus parking in various locations.	
<	Support bus drivers with creation of seating plans and behaviour expectations on buses.	
\checkmark	Work with Transportation and bus drivers to develop drop-off and pick-up protocols that coordinate with school entry and dismissal practices.	
~	Clearly communicate to students and parents/caregivers any new expectations for bus behaviour/ridership (i.e. wearing masks).	
~	Communicate to students and parents/caregivers on bus drop-off and pick-up practices, and school entry and dismissal practices.	

Safe	Safe Access	
Í	 Safe Access focuses on the daily flow of students and staff within the building. Safe access includes school-level considerations such as: dedicated entrances; staggered start times; and, controlled flow of students, staff, guests/visitors in common areas. 	
>	 To develop your site plan, see <u>PSSD Return to School Plan</u>: Limiting Physical Contact (page 22) Limiting Physical Contact/Shared Materials and Equipment (pages 22-24) Managing Guests, Volunteers and Visitors and Arrival, Dismissal and Movement of Students (pages 28-30) Arrival, Dismissal and Movement of Students (page 29) Noon Periods and Recesses (page 30) Modify procedures for entering and leaving the building, parent drop offs. 	
	 Develop protocols to regulate the flow of students through the school considering: The layout of the school including the location of the gymnasium, library, washrooms, lockers, boot rooms, hallways, access to the playground and so on. The number of different instructional spaces required to deliver each class' educational program. This will differ by program (elementary versus high school) and grade configurations. Existing computer labs will remain as is, procedures may need to be altered. 	
	 Review current arrival and dismissal protocols and revise as necessary considering: the number of students arriving and departing at the same time. the number of students who use each entry increasing hours of supervision or number of supervisors for students 	
>	 Develop plan for arrival and dismissal (seek support from Learning Superintendent when needed). These will include: Arrival/departure times Use of entrances/exits Movement patterns through the building Any timetable/schedule adjustments Any proposed adjustments to busing 	
~	Promote and practice the use of non-physical greetings.	
Page	s 28-29 Managing Guests, Volunteers and Visitors	
	 Communication to parents/guests, volunteers, and visitors that they should only be entering the school or Division facility if there is a need that cannot be met another way. Plan should include the following for parent/visitor entrance: Clear signage at entrance (supplied by Facilities) Visitor calls ahead of time to state their purpose for visiting Visitor has "passed" the <u>Saskatchewan COVID self-assessment</u> and shows the assessment results to the Administrative Assistant upon arrival Administrative Assistant will need to keep records with names, dates, and times for when visitors entered the facility. 	
~	When possible, reduce access to everyone who is not necessary for the learning and safety of students - consider virtual meetings	
~	Ensure hand sanitizer is available.	
<	Reduce access to school-based areas such as libraries and gymnasiums for shared use clients.	
	Work with childcare centers and before and after school programs to limit visitors to the school area.	
~	For the first 6 weeks of school: no parent volunteers, guest speakers/performers.	

Safe Facilities

Safe Facilities focuses on the cleaning and sanitation of school buildings.

Schools have been asked to increase sanitation measures and continue to promote proper hygiene practices. This includes the availability of hand sanitizer wherever possible and establishing clear protocols for bringing supplementary school materials, such as backpacks and school supplies, in and out of schools.

Schools will work to ensure that particular attention is given to the increased cleaning and sanitation of high-touch surfaces.

~	To develop your site plan, see <u>PSSD Return to School Plan</u> , <i>Hygiene</i> (page 21), <i>Facilities</i> (page 34) and <i>Cleaning and Sanitation Guidelines</i> (pages 35-37). Support provided from Facilities, when needed.	
Hygi	Hygiene	
	Develop procedures to support handwashing. Recommend that students and staff have their own Health Canada approved hand sanitizer.	
$\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{$	Teach students the importance and techniques of proper hand hygiene and sanitizing.	
Facili	Facilities and Cleaning and Sanitation Guidelines	
	Consider room configurations that promote physical distancing.	
$\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{$	Signage at front entrances of schools with a consistent PSSD message (provided by Facilities) regarding not entering if sick, waiting in the front entrance and not proceeding throughout the school.	
	Additional signage and floor markers at water fountains and washrooms may be considered.	
$\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{$	Work with Facilities and caretaker to monitor frequency of cleaning and disinfecting of commonly touched surfaces, and emptying of garbage bins to ensure expectations are met.	
	Establish clear protocols for bringing materials (i.e., bags, school supplies) into and out of schools.	

Safe Classroom/Common Spaces

Safe Classrooms focuses on the measures to ensure the safe sharing of space in the classroom between students and staff.

These measures include: increased personal sanitation measures and proper hygiene practices; and minimizing contact among students and staff, as much as possible.

~	To develop site plan, see <u>PSSD Return to School Plan</u> , <i>Learning</i> (pages 6-16), <i>Limiting Physical Contact</i> (page 22), <i>Noon Periods and Recesses</i> (page 30) and <i>Nutrition Programs</i> (pages 32-33).
✓	<i>My Prairie Spirit Classroom</i> will continue to guide learning in Prairie Spirit School Division.
~	Work with teachers to develop consistent assessment practices and ensure next steps in learning for students are determined by individualized, authentic assessments.
~	Follow Division procedures and guidelines for reporting and adapt practices to ensure parents are informed of their child's academic progress (e.g., portfolios, conferences, etc.)
~	Follow up with registered families where students are not attending by the end of the first week of school to determine what supports are required.
✓	Consider a level of standardization for families in terms of choice of remote learning platforms.
~	Plan for use of technology to support blended learning.
\checkmark	Address issues of equity of access for students learning from home.
~	Develop a strategy to increase teacher capacity in blended learning (see PSSD <u>MPSC</u> <u>Classroom Learning Supports</u>).
\checkmark	Collaborate with itinerant staff in the creation of schedules to limit the number of facilities visited where possible, and appropriate use of available workspaces, knowing that itinerant staff will continue to visit our schools, as necessary. Work with itinerant staff to determine guidelines and scheduling (e.g., Music/Band require 2-4 metre separation between patrons).
\checkmark	Learning Facilitators will be available to support side-by-side learning at the school level (in person and remotely).
\checkmark	Minimize the number of teachers and support staff working with a specific group of students.
\checkmark	Minimize switches for teachers. Pre-K to Grade 8 teachers should have a homeroom approach as much as possible. Exceptions can only be made for specialized subjects/prep release.
~	 Keep students in one cohort as much as possible. Consider creative solutions to: keep groups from mixing at break times;
	 limit group sizes to 60 or less in high school, such as block scheduling. In elementary school settings, students' cohorts will be the classroom.
\checkmark	No travel between schools for curricular programming (PAA, Music/Band, Phys Ed) – create plan for course delivery.
✓	Precautions taken in PAA programming must follow the direction of the Chief Medical Health Officer and Re-Open Saskatchewan Plan.
>	Food for snack programs, hot lunch programs and breakfast programs should not be prepared by students, unless the students are participating in Commercial Cooking and/or Food Studies and are learning about safety and sanitation in the preparation, storage and service of food.
Page	s 22-25 Limiting Physical Contact/Shared Materials and Equipment
>	Masks will be required for students in Grades 4 - 12 where physical distancing is not possible (e.g. hallways). Pre-K - 3 students are encouraged to wear masks. Children from the same household do not need to maintain physical distance from each other.
\checkmark	Consider modifying room configurations (e.g. separating tables) to promote physical distancing. Front-facing instruction for students should be established in all settings, unless protection barriers can be utilized. For younger children, the focus should be on minimizing physical contact instead of physical distancing.
\checkmark	Consider options for physical distancing within classrooms and other instructional spaces.

×	Classroom considerations should include reducing those items not critical in the classroom to allow for more space to spread out the existing tables and chairs or add tables and chairs to give more space to students at each table. Examples of additional furniture to be removed include couches and soft seating. Store items that aren't critical to classroom instruction.
~	Strategically limit the number of touch points per day on electronic devices and common surfaces.
~	Develop sanitation plans in consultation with facilities and caretaking when spaces must be utilized by multiple student groups (i.e. PAA labs).
~	Ensure students have individual school supplies rather than shared.
 	Physical Education teachers should consider planning learning opportunities that limit common touch items and allow for physical distancing, and prioritizing individual pursuits over traditional team activities.
~	See pages 9-11 <i>Early Learning Plan</i> to support teachers in Early Years classrooms (e.g. staggered entries, providing bins for storage, cleaning schedules). Facilities will work with schools on finding appropriate storage methods and locations.
~	Develop sanitation plans in consultation with facilities and caretaking when spaces must be utilized by multiple student groups (e.g. PAA labs).
Page	30 Noon Periods and Recesses and page 32-33 Nutrition Programs
~	Students should eat lunch in their classrooms. High schools should consider grade cohort groupings and unique locations at noon periods and recesses to limit mixing.
\checkmark	Communicate with parents to encourage students go home for lunch whenever possible.
~	Examine recess and noon schedules as well as entrance and exit procedures in order to determine the structure that offers students break periods while best promoting physical distancing in hallways and playgrounds.
~	Review and revise duties of noon supervisors and students to make a plan for supervision using existing resources. Consult with the Learning Superintendent if there is a need for additional resources.
~	Nutrition program plans and distribution models must align with recommendations of Chief Medical Health Officer and Re-Open Saskatchewan. Schools with "canteen or cafeteria" options must align with the Restaurant and Licensed Establishments Guidelines as applicable for their facility.
	The Nutrition Programs referenced in the government's <u>Primary and Secondary Educational</u> <u>Institution Guidelines</u> would apply to programs such as breakfast programs, school hot lunches, snack programs, etc. Food for such programs should not be prepared by students, unless the students are participating in Commercial Cooking and/or Food Studies and are learning about safety and sanitation in the preparation, storage and service of food.
 	School-supplied food should be delivered directly to the classroom. Students should eat lunches in their classrooms. Food should be served using utensils and in individual portions to each child by a designated staff member.
✓	Food from home must not be shared with other students and should be stored with the student's belongings.

Safe Supports

Safe Supports focuses on the protocols in place to support the learning needs of intensive needs/immune-compromised students, as well as protocols in place to support the mental health of staff and students.

Pages 17-18: Students with Additional Needs Image: Develop individual student transition plans to facilitate the re-entry of students with needs back to the school environment and to meet individual student needs. Image: Develop individual student transition plans for return to school with families. Consider creating school level wellness initiatives. (p.39 Human Resources)	13175

Safe Activities	
Safe Activities focuses on the protocols and policies governing group activities including:	
 extra-curricular club activities; participation in athletic events/competitions; and, school assemblies 	
To develop your site plan, review the <u>PSSD Return to School Plan</u> , <i>Limiting Physical Contact</i> (page 22) and <i>Extra-Curricular</i> (page 27).	
Pages 22-25 Limiting Physical Contact/Shared Materials and Equipment	
Limit physical contact during recess and noon periods and avoid activities that require clustering of students. For younger children, the focus should be on minimizing physical contact instead of physical distancing.	
Provide students with alternatives to activities that require physical contact with other students. Student play during Physical Education and recesses are primary considerations	
Classroom activities and recess times should not include equipment that might be touched by multiple students. Due to the increased cleaning required, it is best to decrease the number of toys/equipment available to children. Remove toys and other items that cannot be easily cleaned and disinfected.	1
Page 27 Extra-Curricular	
At this time, all in-person extra-curricular activities are on hold. Schools will be notified when extra-curricular activities are approved to commence (in accordance with the CMHO guidelines).	

Safe Alternatives

Safe Alternatives focuses on the contingency plans to ensure the continuation of education in a safe learning environment. There are four levels of education delivery:

Level 1: Primary and Secondary Educational Guidelines – As close to "normal" as possible, with some additional measures.

Level 2: will involve mask usage as determined by the Chief Medical Health Officer.Level 3: will involve reducing classroom capacity. This may include establishing cohorts and hybrid learning models as considerations.

Level 4: would take us back to suspending in-class learning, and moving back to a similar model we saw this past spring, with divisions working at the local level to ensure learning continues. In this model, school would continue to be mandatory, albeit remotely.

These levels would be put in place by Saskatchewan's Chief Medical Officer and we will continue to work closely with him, and his team, on all Safe Saskatchewan planning.

Prairie Spirit announced a move to Level 2 on August 12.

At this level, masks will be required for students in Grades 4 through 12 where physical distancing is not possible (e.g., hallways and buses). Pre-Kindergarten to Grade 3 students are encouraged to wear masks. Prairie Spirit staff members will be expected to wear masks when social distancing is not possible. Please see the <u>communication to Prairie Spirit families</u>, dated August 12.

\checkmark	To develop your site plan, review the PSSD Return to School Plan, Communication (page 5),
	Transitions (page 15) and Division Contingency Plan (page 44).
Page	5 Communication and page 15 Transitions
>	Consistently communicate with families.
>	Follow up with registered families where students are not attending to see how they are accessing learning.
\checkmark	Consider a level of standardization for families in terms of choice of remote learning platforms.
>	Plan for use of technology to support blended learning.
\checkmark	Address issues of equity of access for students learning from home.
\checkmark	Consider using a range of social media to inform parents and community.
Page	44 Division Contingency Plan – Level 4
\checkmark	All students are required to participate.
>	Staff will be physically present in school.
$\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{\mathbf{$	School day structure will maximize learning for all students.
\checkmark	Full Saskatchewan curriculum will be delivered.
>	Student-teacher contact time must be prioritized regardless of the delivery format.
>	Differentiation of instruction will be important.
\checkmark	The focus will be on teaching of outcomes, rather than amount of time per subject (a cross- curricular approach is recommended).
\checkmark	Focus on efficient learning opportunities and approaches that are conducive to flexible learning spaces and interaction time with teachers.
\checkmark	Multiple modes of delivery should be considered to accommodate all students (i.e., pencil/paper, technology, asynchronous, synchronous, etc.).
\checkmark	Subjects impacted by the physical environment will be delivered if the curriculum is able to be delivered using an approach that allows for flexible learning spaces and considers safety.
