

Grade 3/4 Learning Framework for April 6 – April 10

Please spend time reading, writing, creating, exploring, and being physically active each day.	
Math:	<p>Measurement Unit</p> <p>Grade 3 – V.4, V.5, X.1, X.2, X.3, X.4</p> <ul style="list-style-type: none">-these sections will have you thinking about linear measurement and measuring the perimeter of a shape-to measure perimeter you need to measure the distance around something-get out a ruler (units in centimeters) or a tape measure (units might be in centimeters and meters, or inches and feet) and start measuring objects in your house <p>Grade 4 – Q.3 - Q.8, N.1</p> <ul style="list-style-type: none">-these sections will have you measuring the area of an object-area is measured in square units-to measure area – measure the length and the width and then multiply-this gives you the area-you can watch the video below for several lessons on measuring area <p>https://www.khanacademy.org/math/basic-geo/basic-geo-area-and-perimeter/basic-geo-unit-squares-area/v/introduction-to-area-and-unit-squares</p>
Language Arts:	<p>Read each day!!</p> <p>Go to www.getepic.com or www.raz-kids.com for great book choices.</p> <p>Write each day – this week it's time to</p>

	<p>write a fiction story. Perhaps it could be an adventure, which takes place in a snowstorm. Maybe it is about a visit from the Easter Bunny. It could also take the shape of a mystery. See what you can create.</p> <p>If you're looking for help with your keyboarding skills be sure to go to keyboarding.com (on our SCP class site) for some practice.</p> <p>Continue with Genius Hour research. I'd love to see your final project in once it's complete.</p> <p>Some people are starting on new research. See what great things you can learn about.</p>
Science:	<p>Grade 3's – This week think about testing materials.</p> <p>Can you devise a plan to test the strength of materials such as straws, tape, string, cloth, spaghetti or other material? Make some predictions and observations as you test each item.</p> <p>Grade 4's – This week think about how white light is made up of the colours of the spectrum.</p> <p>There is a great book in Epic titled, <u>The Science of Colour</u>. It does a really good job of explaining how white light is made up of the spectrum of colours and how we see colour. There are also other great books on light, colour, and prisms.</p> <p>Also, check out the video on light and colour.</p> <p>https://www.youtube.com/watch?v=9Vsl0lom3S0</p>
Social Studies:	<p>Grade 3's – I hope you've picked a country to learn more about. Time to do some research. Take some time to find</p>

	<p>out about the geography, climate, animals, plants, people, and culture (celebrations, language, food, etc.) of the country. dig deep. There is so much to learn about our world!</p> <p>Go to the Social Studies tab in our SCP class site. I've linked it here also. https://www.kids-world-travel-guide.com/ You will be able to find out many details about your country.</p> <p>Grade 4's – Continue with last week's assignment. Take some time to find out about your own family history in Saskatchewan. You may need to refer back to last week's Learning Framework if you haven't done the interview. Please send me your interviews when you are done. I will create a document to share with you what others have learned about their families.</p>
Health:	<p>Time to create a restaurant and menu. What is your restaurant's name? What foods will you serve to meet the requirements of the Canada Food Guide? Be creative! Serve great food!</p> <p>Check out the link to the Canada Food Guide information. Maybe this will give you some ideas.</p> <p>https://food-guide.canada.ca/en/?wbdisable=true</p>
