All three of our elementary schools offer a warm, welcoming and supportive Kindergarten program, as part of [Prairie Spirit School Division](#).

It's important that there is a balance of Kindergarten enrollment between our elementary schools to give each student the room they need to grow and learn. Depending on enrollment numbers, a Kindergarten student may be directed to a specific school location, based on the following criteria:

- Does the Kindergarten child currently have an older sibling in one of the schools? If so, they will be placed in the same school as their sibling, unless otherwise specified.
- Where is the child's home located?
- What childcare plans are in place for the 2022/23 school year?
- Does the child live within walking distance to one of the schools?
- What school do the majority of other students from the child's neighborhood attend?
- Has the family requested a specific school?

Please note that Kindergarten registration is not a "first come, first served" process. The factors listed above will be applied equally to all Kindergarten registrations submitted through the Prairie Spirit School Division website prior to **February 28** - [STUDENT REGISTRATION – Prairie Spirit School Division \(spiritsd.ca\)](#)

If you have questions about any of the schools, please contact school administration.
