TO EMPOWER A COMMUNITY OF LEARNERS  
BY PERSUING SUCCESS FOR ALL

Number 10

\*\*\* \*\* \*\* \*\* \*\*

## Principal's Message

I can't believe it's June already!!! June is a month full of reflection, fond goodbyes and looking ahead to a summer of excitement and (eventually....) the upcoming school year. I know the number one thing everyone is wondering is how has the budget shortfall impacted our school? By now, you should have received the division memo outlining all the reductions across the division. Our school has also felt the impacts of the budget shortfall; however, through creative thinking and a wonderful staff that has been willing to be flexible and take on new challenges, I truly feel like the impact on our school is not anywhere near as bad as we had feared it could be. We heard that parents valued straight grades over splits, and I feel we were able to honour that despite some challenges.

The easiest way to describe the changes would be to start at the beginning:

- Pre-K - Mrs. Connie Molnar
- K - Ms. Jen Mason
- Grade 1 - Ms. Kim Goran
- Grade 2 - Mrs. Nicole Robinson
- Grade 3 - Mrs. Karen Addley
- Grade 4 - Mrs. Sherry Walker
- Grade 5 - Mrs. Johnson and Mrs. Molnar
- Grade 6/7 - Ms. Melissa Bachmeier (formerly Wickett) (Ms. Gruending for Math 6)
- Grade 8-12 is essentially remaining the same with Mr. Karras taking over many of the duties in the IA lab and Mr. Munday doing all of the elementary Phys. Ed.

We are very excited to have Ms. Goran and Mrs. Robinson returning to our staff in the Fall. Ms. McHanson will also be returning to LAS after her most recent maternity leave. We are very lucky to have an intern, Ms. Kayla

Manovich, working with Ms. Mason and a few other teachers for Semester One.

These staffing changes are necessary due to the elimination of the Teacher Librarian position and a reduction in FTE (teacher staffing). Our Educational Assistants allotted to our school has also been reduced from 12.4 to 8.8. If you have any questions or would like to chat further, please contact me at the school or feel free to come out to the SCC meeting in June.

Despite the challenges PSSD and our school has faced this year, we also need to make sure we celebrate our successes. We have a school staff that is willing to stretch themselves to make sure our students have the best we can provide. This is because our staff truly cares about our kids. We have students that are each successful in their own way -- their talents diverse and many. We have community members and parents that give up their own time to volunteer and actively be a part of our school community. We have been on field trips, explored interests in class, showcased our talents, performed well academically and at sporting events. We have medaled at Provincials.

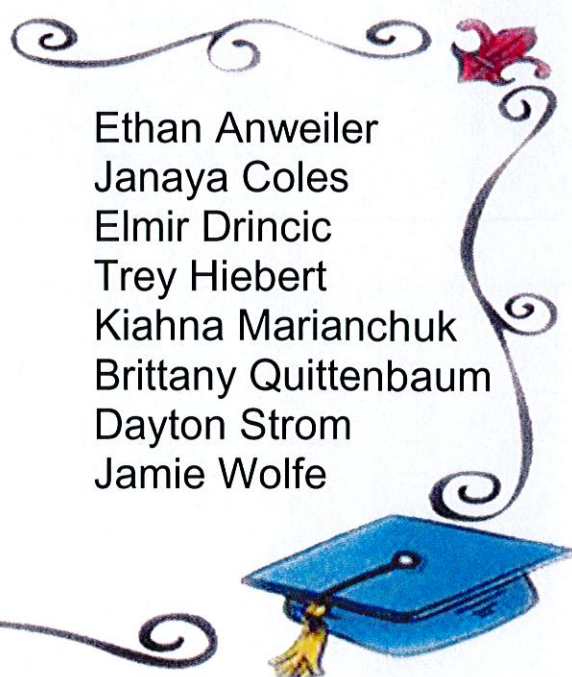

This year, we are graduating an amazing class of students who have shown leadership, determination, a sense of humour and intelligence in all of its various forms. I would like to congratulate all members of the 2015 Graduating Class -- you have made us proud!

Josh Abbott  
Dallas Billette  
Jackson Dahlside  
Emily Ganchar  
Steven Kraft  
Trent McGraw  
Cody Schettler  
Brian Symington

Hannah Ablass  
Blake Britton  
Tyler Driedger  
Kirkland Graham  
Shayna Lemon  
Tanner Quiring  
Ty Shrimpton  
Rachel Waycott

Ethan Anweiler  
Janaya Coles  
Elmir Drincic  
Trey Hiebert  
Kiahna Marianchuk  
Brittany Quittenbaum  
Dayton Strom  
Jamie Wolfe

I am so very proud of the students, staff and community members of Lord Asquith School. Together we have done great things, and I can't wait to see what we can accomplish next year. Have a wonderful, fun and safe summer everyone :)

*Leanne Gruending*

## Upcoming Events

### GRADE 9 INFORMATION NIGHT

June 15, 2015, 6:30 PM  
Lord Asquith School Library

Please RSVP to Laurie Rousell at 329-4331.

### LORD ASQUITH SCHOOL AWARDS NIGHT

Thursday, June 18<sup>th</sup> at 7:00 PM

Come out and celebrate the  
achievements of our  
students at LAS!

Look forward to seeing  
you there!

## Information for Parents and Students:

# Changes to Senior Science Curriculum

The provincial senior high school science curriculum is changing. These changes will take effect in Prairie Spirit School Division in September, 2015. As a result of these changes, students will have new choices to make as they select courses for next year. Please note that students require Science 10 and one 20 or 30 level science course in order to graduate.

The goal of these changes, which the Ministry of Education calls a curriculum renewal, is that students will be stronger in the following areas:

- solving real world issues through interdisciplinary thinking;
- connecting scientific ideas to each other, to their own lives and to the world;
- understanding science in all careers and the careers in science; and
- exploring western, traditional and other knowledge systems to help gain a more holistic view of concepts and processes.

Three current courses will be phased out: Biology 20, Chemistry 20 and Physics 20. The following courses will be renewed or updated: Science 10, Computer Science 20, Biology 30, Chemistry 30, Physics 30 and Computer Science 30.

**Health Science 20, Environmental Science 20 and Physical Science 20 will be introduced as new courses this fall.**

During the transition period of curriculum renewal, students will be allowed to receive credit for any combination of current and renewed secondary science curricula as long as prerequisites are met. For example, a student could receive credit for any or all of Physics 20, Chemistry 20 and Physical Science 20.

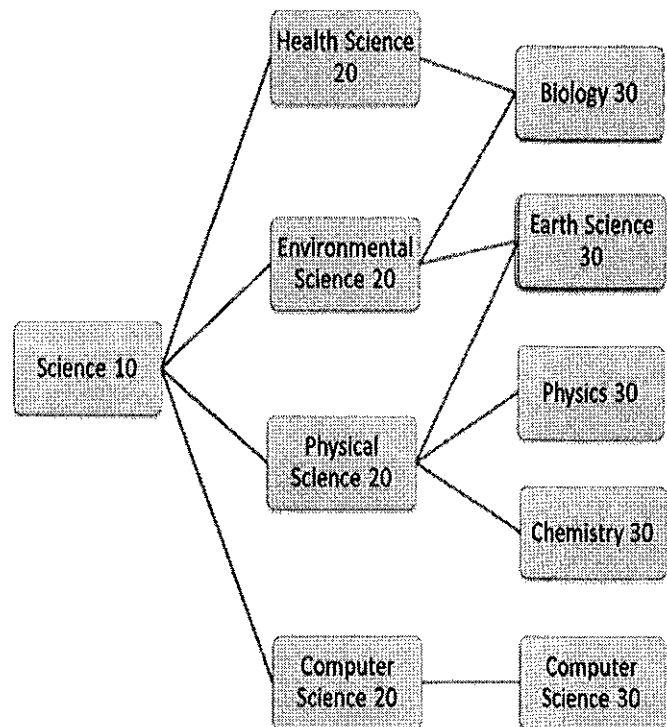

For more information about your child's specific situation, please contact your school principal.

### Senior Science Pathways

The Ministry of Education has been in contact with post-secondary institutions within the province regarding the development of the renewed curriculum and they have been supportive and enthusiastic about the renewed curricula.

Both renewed and non-renewed 20 level courses will be suitable as prerequisites for both renewed and non-renewed 30 level courses during the transition to renewed curricula.

**Please note that students  
require Science 10 and  
one 20 or 30 level science  
course in order to graduate.**

## Descriptions of new science courses

### Environmental Science 20

Students will learn how to examine local and global environmental issues such as climate change, water, soil, and air quality, urbanization, bioresource management, waste handling and disposal, land-use planning and the impacts of agriculture and industry on the environment from scientific and Indigenous knowledge perspectives. Students will examine the role of environmental policies and ethics on decision making, and will investigate environmental science related careers. Student directed studies will lead to the development of environmental action plans.

*Prerequisite: Science 10*

### Health Science 20

This course will challenge students to look at the health science field from holistic and analytic perspectives to provide a basis for making sound personal health choices. Students will apply information in the areas of medical knowledge systems and ethics, human anatomy and physiology, nutrition and metabolism and medical diagnostics. Understanding the basic anatomy and physiology of the human body will provide a context for studying the normal and abnormal functioning of various body systems and the tools and techniques used to diagnose those systems. Students will also investigate the range of health science careers and post-secondary programs available in Saskatchewan.

*Prerequisite: Science 10*

### Physical Science 20

This course combines elements of Chemistry 20 and Physics 20 in an integrated hands-on manner to investigate concepts related to heating and cooling, the foundations of chemistry, including the mole and quantitative analysis of molecules and chemical reactions, and the characteristics and properties of electromagnetic radiation. An overarching theme is the study of the enterprise of public and private science as it occurs in agriculture, industry, and universities to help students better understand the physical science related career paths.

*Prerequisite: Science 10*

### Earth Science 30

Students will examine our planet's geological origins and the geological timescale as a foundation to guide decision making with regard to the use of its mineral and energy resources, the maintenance and remediation of the environment, and response to geological hazards. Hands-on field experiences will enable students to develop visual-spatial reasoning skills and an understanding of the role of Geographic Information Systems. Students will also explore the historical and contemporary significance of Earth Science and related careers.

*Prerequisite: Physical Science 20 or Environmental Science 20*

**NOTE: Earth Science 30 will be implemented in the fall of 2016.**

# Report Cards

Report cards for **Grades 1 to 8** will be sent home with students on the last day of school, June 26<sup>th</sup>.

Report cards for students in **Grades 10 to 12** will be available for pick up on Tuesday, June 30<sup>th</sup>, between 9:00 AM and 10:00 AM. If

your children are not able to pick up their report cards, please make arrangements for pick up or provide the office or your child's/children's homeroom teacher with a stamped, self-addressed envelope to enclose your child's/children's report cards. If you have more than one child, leave your envelope at the office and the office staff will make sure that all your children's report cards are enclosed and make sure that your envelope is large enough to enclose all of your children's report cards.

## Graduation 2015

Graduation Day is **June 29<sup>th</sup>**! The Exercises are at 7:00 PM and everyone is welcome to attend! Let's celebrate our 2015 Graduates, their accomplishments and wish them the best in their future!

## New for the 2015/16 Academic Year!!!

### Yearbooks for 2015-16

Due to rising publisher costs, the 2015-16 yearbook fee will be \$31.00 from the \$25.00 that it has been in past years. Sorry for any inconvenience this may cause.

## Safe and Secure Protocol

In September of 2015, Prairie Spirit will be launching their new **Safe and Secure Protocol**, which will promote safety and restrict unauthorized access to the school building. As a result, there will be changes in the way students and parents access our school. This change was recommended by the RCMP.

During the school day, access to the school will only be allowed through the main entrance door. If a student is late for school, they will be advised to go to the main door. Staff will be directed to check for young students who may be waiting outside their usual entrance. Other doors may be unlocked by school staff at the beginning of the day and at break times to allow students to access the school.

If you have any questions about the **Safe and Secure Protocol** or would like a copy of the document, please speak to Leanne Gruending.

## ALLERGY AWARE

It's hard to believe that it's June already. Thanks to all the parents, students and staff for making Lord Asquith School peanut and tree nut aware. We really do appreciate you taking the time to read labels and being very careful of what comes to school. Thank you for helping keep our kids safe. We hope everyone has a great summer!!

## School and Community Council

Our next SCC meeting is Tuesday, June 23<sup>rd</sup> at 6:30 p.m. We'd love to have you join us as we plan the remainder of the school year. All community members and parents are welcome and encouraged to attend.

If you have any suggestions or questions, the SCC can be contacted via email: [asquithscc@gmail.com](mailto:asquithscc@gmail.com).

ALL ARE WELCOME! Meetings are held in the Staff Room. Childcare is available. Questions? Email: [asquithscc@gmail.com](mailto:asquithscc@gmail.com)

# Academic News

## GRADE 8 NEWS

Congratulations to the Grade 8s who worked extremely hard at their Cardboard Boat Race Challenge! Special recognition goes to Brynn Whelan, Sarah Totter, Joraine Luke and Emily Anweiler who won Best Overall Design!!! **GOOD JOB!!**

## CONGRATULATIONS!!!

to

**Nicholas Rousell, Cole Shrimpton, Ben Goetz, and Jan Kielstra**

whose film **MacBeth Vice** was selected for the Short Film category at the Prairie Spirit Film Festival!!! We are happy to announce that their film won the **Outstanding Adaptation in the Short Film** category!!! Way to go, gentlemen!!!

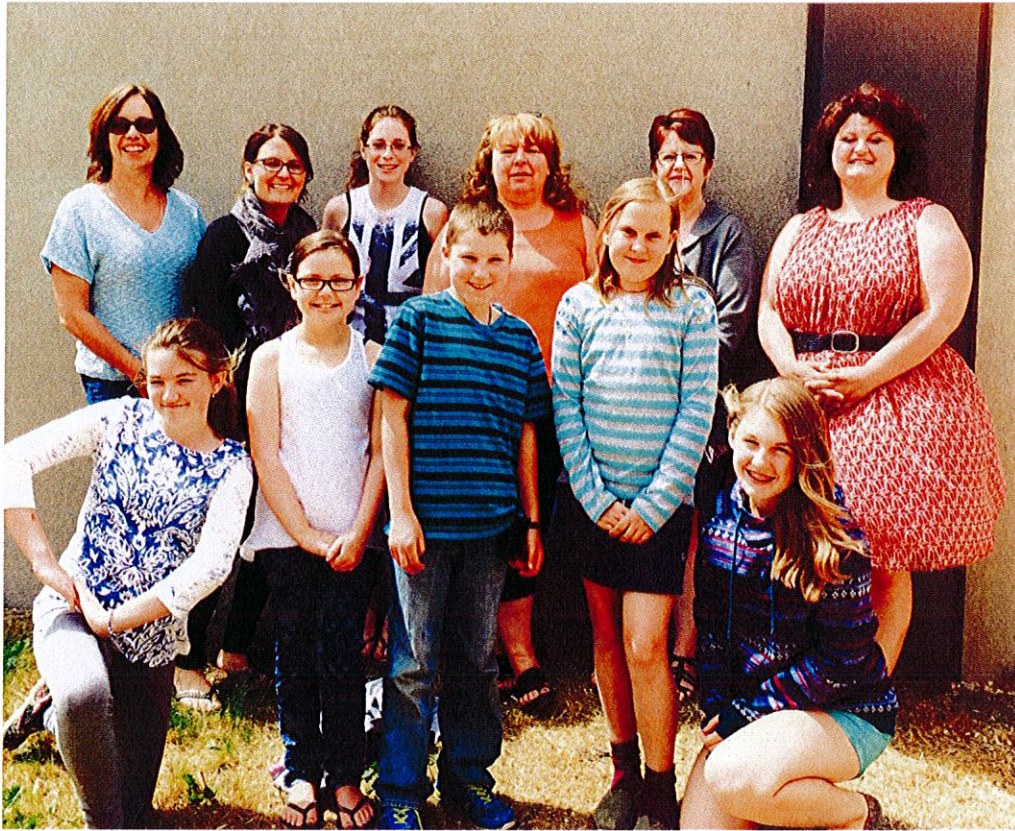

As a final note, we would like congratulate Ben Goetz on his nomination for the **Rising Star in Acting** award. Although he did not win, we are very proud of his achievement.

## Health Promoting Schools

This past Fall, HPS formed a Youth Ally Group. We took this group of young students to a Youth Leadership Symposium in Saskatoon. It was a fun day of learning leadership skills while playing games. In January, we attended a meeting where the youth groups shared what they have been doing at their schools and came back with great ideas. Our Jr. SLC and Youth group made healthy snacks for treats, fundraising and for students. We purchased a cooler to fill with healthy snacks, fruit, and drinks for our school teams to take to sporting events and for field trips that exceeded

our regular school day. We've put up colourful bulletin boards throughout the year with ideas for healthy living. All in all, we had a fantastic year reaching students and families in many areas. We wish everyone a fun and safe summer!

## Extracurricular News!

### CONGRATULATIONS!!!

Congratulations to all of the our track athletes who worked incredibly hard on May 20<sup>th</sup> at the District Track & Field Meet at Griffiths Stadium on May 29<sup>th</sup>. They were wonderful ambassadors for our school!

**Special congratulations to Brandon Picketts who won GOLD in the 80m hurdles! Way to go, Brandon!**

The following ladies advanced to Provincials in Yorkton on June 5 and 6<sup>th</sup>:

Hannah Ablass – Javelin  
Nadia Jobs – Javelin  
Cami Schettler – Javelin  
Evan Stack – Shot Put.

**Congratulations to Nadia Jobs who placed 4<sup>th</sup> in the Javelin event! Great job, Nadia!!**

## ***CONGRATULATIONS!!***

## **News from the Office!!**

### ***Lost and Found***

There are a few items that have been collected over the past couple of weeks. Please check it out if you are missing any items before June 26<sup>th</sup>. Any items not picked up will be donated to charity.

## **Division News**

**A Prairie Spirit Bus Driver:**

- Receives free training
- Is well supported by the school division
- Follows the school calendar
- Enjoys daily contact with students
- Supports the local community
- Could take their young child along on route

**Applications for Bus Drivers  
are now being accepted**

*Call the Prairie Spirit Bus Garage at (306) 374-2496  
for more information about this flexible opportunity.*

SCHOOL DIVISION**  
*Learners for Life*

# Keeping Kids Safe

## Public Health Services

---

**Traffic injury is a leading cause of death for school age children.  
Help your children stay safe by reviewing these important points:**

### **Cross the street safely ...**

- cross only at corners
- watch for long safe gaps in the traffic
- be on the lookout for turning cars
- look all ways before crossing

### **Respect your school patrol ...**

- stand behind your patroller at the curb
- walk, don't run, when your patroller signals you to cross the street
- listen carefully when your patroller reminds you how to cross the street safely

### **Play by the rules ...**

- look all ways before crossing the street
- never play on the road or near parked cars
- drive your bicycle safely, obey all signals and wear a helmet
- play games and have fun in a safe place, away from traffic
- walk, don't run, when crossing the road
- where there is no sidewalk, always walk facing the traffic

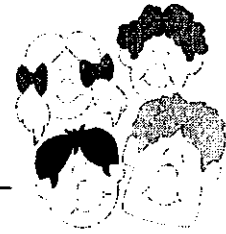

*Adapted with permission for Community Health Department, Regional Municipality of Waterloo*

# Sunburns

## Public Health Services

---

A bad burn before age 20 will double your risk of developing skin cancer. In fact, 80% of the most damaging effects of sunburn usually occur before the age of 18.

### Sun protection hints ...

- whenever possible, stay out of the sun from 10 a.m. – 3 p.m. when the sun's ultraviolet B radiation is the strongest
- apply sunscreen one half-hour before going outside
- apply a generous amount of sunscreen (SPF 15 or higher) **before** dressing. This will ensure all potentially exposed skin has been covered. Don't forget creases in the legs, arms, tops of feet, ears and neck
- some individuals may develop a rash which indicates an allergic reaction to the sunscreen. Try on a small area of skin first
- be sure to wear a wide-brimmed sun hat, light cotton clothing, long sleeves and pants when in the sun
- when swimming or active, wear a T-shirt and waterproof sunscreen.

Always reapply every 3 – 4 hours, or after each swim

- sunlight reflected off water in pools or lakes, sand, asphalt, concrete and snow can cause serious burns; extra protection may be needed
- don't be fooled by cloud cover – up to 80% of the sun's damaging rays get through light clouds, haze and fog
- wear sunglasses with UV protection
- baby oil is not a sun protector

### Treatment of Sunburn ...

- bath area gently with vinegar or cold water
- cover area with a cold, wet sheet until the skin feels cool
- seek medical help if serious
