## Attendance Notifications

We would appreciate a phone call to the office when your child will be away from school for any reason. We will then inform the classroom of the absence and the reason. If you prefer to talk directly to your child's teacher in person or via Day planners, please take a moment and also call into the office. This is important as absences marked only as 'absent' will still generate a notification to you via the PowerAlert system and can be avoided if the proper information reaches the office. Remember, messages can be left any time, day or night. Thank you for your cooperation!
