

TASK

#4

SETTING UP THE SITE

You've arrived at the campground and now it's time to set up your campsite!

It is 4:00 pm and the group wants to start cooking supper at 5:00 pm. Can you have everything set up by 5:00 pm? Let's figure it out!

Task	How long will it take?
unload bicycles	7 minutes
unpack the vehicle	12 minutes
set up the tent	13 minutes
organize the inside of the tent	15 minutes
arrange picnic table and food storage	5 minutes

Altogether, how long does it take to set up the campsite?

Will you be finished setting up by 5:00 pm?

After supper, it's time to get wood for the bonfire area. The good news is that the fire wood is close by and you won't have to walk far to get it! You grab the wagon and get ready to start hauling wood! Altogether you will need 50 logs to last for the weekend.

On the first trip to the firewood storage, you haul 11 logs. Now how many more do you need?

On the second and third trip you are able to haul 10 logs (on each trip). After the third trip is complete, how many more do you need?

You will make two more trips for wood. How many logs could you take on the fourth and fifth trips to make sure that you have 50 in all?
