

Osler School

May 25, 2020

Dear future Kindergarten parents,

Welcome to Osler School! I hope you and yours are keeping well. There is no doubt that your introduction to our school takes you on a different journey from that our previous Kindergarten Orientations. We look forward to the 2020-2021 school year even though there are some questions we cannot answer at this time. The one thing I am extremely confident in saying from my experience over the last 3 months is that our teachers have done a remarkable job of staying connected with their students, with parents and with each other the school. As our motto states we are all about "Learning and Growing Together." The last 3 months have been a testament to that importance of community and the fact we are all working to learn and grow in a time of unprecedented uncertainty. We rely on each other, staff, parents and students to continue to support each other as we recognize that Learning is Everywhere. If you have not had a chance please take a minute to check out our Facebook page entitled: Osler School "Learning is Everywhere" challenge. The picture in this letter comes from one of my all-time favorite books. It has guided my love of and excitement about Kindergarten programming over my years as a principal. We are very fortunate to have a teacher, Mrs. Bymoer, who brings these words to life in her classroom.

Once again I say welcome to the Osler School community. We look forward to working together with you for we know that parents are our most important partners as we encourage the next generation to "Learn and Grow Together."

"Be kind, stay healthy and find the goodness in each day."

Yours in "Learning and Growing...Together"

Audrey Kampen
Principal
