

RCS BULLETIN– JANUARY

ROSTHERN COMMUNITY SCHOOL — Relationships, Courage, Success

Rosthern Community School students, families, and community members,

We made it to 2021! The first four months at RCS might not have gone exactly how we thought they would, but they were still filled with a TON of exciting events and activities. Mrs. Foster and I really want to thank our staff, students, and families for the role that each of you played in keeping our school a positive and engaging place to be!

As we look to the weeks ahead, we are ready to stay focused on student growth – we always want to make sure that each of our students is reaching their full potential. One way that our teachers are making this happen is through some professional development about the “teacher clarity model”. As the year continues, students will start hearing words like learning intentions (which describe what students are learning in each class) and success criteria (which identifies what they should know/understand at the end of a lesson). This ongoing work helps students to have more ownership of their learning, and also helps teachers to target the unique needs of individual students. We are lucky to have teachers who are so willing to learn, grow, and care deeply about each student in their class!

January is an especially important time of learning for our students in grades 9-12 who will be writing midterms and final exams at the end of the month. Students in grade 10 will be completing their first set of “credit courses” which contribute toward graduation – if parents have any concerns about students who might be in jeopardy of not successfully completing a class, we encourage them to contact classroom teachers ASAP!

As we continue to create a safe learning environment at RCS, we want to remind all families of the following:

- RCS is still at “Level 2” of the Saskatchewan Safe Schools Plan, meaning that full in-class learning is available for all students. Online learning is only available for students who are required to self-isolate.
- Students in all grades are still required to wear masks throughout the school day.
- Water fountains are not available for students, so we are requiring all students to bring a water bottle to school (the bottle filling stations are available).

We hope that you all have a safe, happy, and healthy January!
