

Applications will be accepted starting the first school day in September for the following school year. Enrollment for the following year for Kindergarten is decided by our Board in November, and for Grades 1 – 12 in March.

Applications should be sent or dropped off to the school by the beginning of the enrollment month which would be November for Kindergarten and March for Grades 1-12.

Applications received after the enrollment has been done, will be added to the waiting list and would only be considered if there's room in the grade for which they are applying. It is not generally our practice to accept students mid-year, as usually our classes are full.

Applications sent in July and August will be dated as the first day of school in September.

Students who are not accepted for the school year must reapply **EVERY YEAR** to remain on the waiting list.
