Admin Team Message

Hello Warman Elementary Families! Even though our school buildings continued to be closed for an undetermined time in response to the COVID-19 pandemic, it has been a very exciting week for staff as we CONNECT and DETERMINE NEEDS with our students and families. A big bouquet to all of you – staff, parents, students – for your work and learning in figuring out how to use a variety of digital tools that will be important parts of our work together for now. By now all school staffs and families have received information from Prairie Spirit School Division about the Supplemental Learning Plan that will guide invitational learning opportunities for students for the remainder of the school year. Over the coming weeks it will be through the learning and collaboration of school staffs, parents, and students that we will create what this exactly looks like. This is new territory for all of us.

We know that this is an uncertain time for many. Everyone will have different capacities for supporting their children in supplemental learning opportunities and that is OK. We want to remind all that LEARNING IS EVERYWHERE! You can support your child in learning in so many ways! Make taking care of yourself and your loved ones a continued priority.

Together we will take this one at a time and we will get through this!
