

Music Inquiry Project Proposal

Name _____

My Idea:

- Instrument(s) being pursued

I want to pursue using a mixer to make music and play around with Electric Music.

- Why I chose this instrument(s)

I choose this instrument because I like that type of music and want to learn how to use the mixer to play with music.

End Product

- How my project will look when it is completed

My project will be a completed song remixed using the mixer. I will record my progress to update my teacher every week or two. When it is finished I will record and give the recording to the teacher.

- What will I have learned or accomplished at the end of the project

I will learn how to make music digitally and learn how to mix songs.

Process

- The steps I will need to take to complete the project/what my in class work will look like

I will have to work on my music and on the mixer every day. My in class work will consist of my work with the computer and mixer.

- How I will show the teacher my progress

I will show the teacher my progress by recording the music I'm making and how far I've come. I can write down my progress in my journal log.

- How I will know when I have completed my project

I will know I've completed my project when I've successfully remixed a song.

Materials Needed

Computer

Mixer

DJ software

Headphones

Electric piano

Log book

- How my teacher will know when I have completed my project

I will show the teacher my final song.
