Dear W.W. Brown families:

As you know, an extensive renovation project is currently underway at Walter W. Brown School. We are excited about what the renovations will mean for the school and the community!

The project was planned to be completed before the start of school this fall, but construction is slightly behind schedule. To ensure the safety of students and staff, the first day of school for W.W. Brown students will be delayed until **Tuesday, September 6**. This will allow the construction crews to complete crucial work before students are on site. Student and staff safety is always our priority.

The instructional time from September 1 and 2 will be recovered by reducing the length of the lunch break for semester one. This change will allow students to regain the instructional time without any changes to the start and end times of the school day and without impacting the bus schedule.
